By Cable to THE SENTINEL.  
WASHINGTON, D. C., June 6.—The  
president appointed John W. Nelms, of  
Georgia, United States marshal for the  
northern district of Georgia.

The secretary of the treasury to-day  
received a strong protest against the  
continued coinage of the present silver  
dollar, which contains the signature of  
almost every banking association and  
business man in South Carolina.

Among the signatures are the treasurer  
and comptroller general of state.  
In compliance with the rule adopted  
by the cabinet last Thursday, the presi-  
dent and heads of all executive depart-  
ments secluded themselves from the  
public to-day, and denied themselves to  
all visitors. Private Secretary Lamont  
also refused to see callers.

The steamer Dolphin will make her  
trial trip next Thursday. The Dispatch  
steamer will go out with her.

The attorney general has issued an  
order closing the department of justice  
to visitors on Saturday.

Mr. Nelms, appointed marshal of the  
northern district of Georgia, is the prin-  
cipal keeper of the Georgia state peni-  
tentiary.

Washington, June 5.—The com-  
missioners on navigation has issued a cir-  
cular to customs officers in regard to  
the issue and surrender of marine docu-  
ments, the principal provision of  
which is that all marine documents  
will be numbered by the customs of-  
fices, progressively as issued, com-  
mencing with No. 1 on July 1st of  
each year. Five separate series of  
numbers will be used, as follows: For  
registers (not generally issued in  
northern frontiers or western rivers),  
for enrollment, for licenses under  
twenty tons (not used on northern  
frontier), for licenses to yachts used  
and employed exclusively as  
pleasure vessels or designed as models.

**CASH MISSING AT NEW ORLEANS.**  
The secretary of the treasury to-day  
received a telegram from J. A. Sam-  
ple, of the United States treasury's  
office, who is at present engaged in  
investigating the affairs of the assist-  
ant treasurer's office at New Orleans,  
reporting that the shortage so far dis-  
covered in the accounts of mutilated  
currency and United States notes de-  
posited for redemption, amounts to  
\$25,343. It was also reported that re-  
demption clerk, J. H. Audemart, who  
is suspected of the defalcation has dis-  
appeared and efforts to arrest him have  
proved unsuccessful. The treasurer  
says it is possible the total shortage  
may be increased to \$50,000.

**NEW ORLEANS, June 5.**—John H.  
Audemart, for seventeen years a con-  
fidential clerk in the United States treas-  
ury in this city, has absconded with  
several thousand dollars of govern-  
ment money. The exact amount of  
the defalcation has not yet been  
learned, but is believed to be more  
than \$15,000. P. F. Herwig, the treas-  
urer, will make the amount good. Mr.  
Herwig received a dispatch from  
Washington this morning to the effect  
that telegrams descriptive of the man  
had been sent to all parts of the coun-  
try, Mexico, Canada and Europe. It  
is thought Audemart has gone to  
Mexico. As he has been a defaulter to  
the government of the United States  
he can be apprehended and returned  
from any country.

**CHARITIES AND CORRECTIONS.**  
At the second day's meeting of the  
Conference of Charities and Corrections,  
Mr. William Howard Neff, of Cin-  
cinnati, chairman of the committee  
on reports from the states, read the  
committee's report. The reports em-  
bodied abstracts of reports from several  
states. Reports from several  
southern states noted a general reduc-  
tion of the system of hiring out con-  
victs, and the adoption of measures  
which have a tendency to mitigate the  
evils of the system. The report from  
Delaware noted the mitigation of the  
severity of the whipping system. Blood  
was rarely drawn. At present  
the whipping post was in general favor  
with the people of Delaware for the  
punishment of petty offenses, and it  
was rarely found necessary to admin-  
ister a second whipping to the same  
offender.

**MAKING ACQUITTED.**

Judge Mackey, father of Consul  
Mackey, has received the following  
telegram from Rio de Sul, Brazil,  
from Consul Beckford:  
"Mackey has been absolved unan-

mously by the jury. All honorable  
citizens celebrate the event."  
[Signed]  
THE COMMITTEE OF CITIZENS.  
NOTES.

The commissioners of the district to-  
day appointed William B. Powell, of  
Aurora, Illinois, superintendent of  
public schools of the district of Colum-  
bia. Mr. Powell is a young brother of  
Major Powell of the geological sur-  
vey.

Hunter Wood, who was to-day ap-  
pointed collector of internal revenue  
of the second Kentucky district, is a  
resident of Hopkinsville, Kentucky, a  
lawyer by profession and the owner of  
the Hopkinsville New Era. He was a  
delegate to the last Democratic national  
convention.

The injunction suit of R. C. Hewitt,  
et al., vs. the Western Union Tele-  
graph company and the district com-  
missioners, to restrain the telegraph  
company from erecting a pole line on  
Seventh street, was decided in the  
equity court to-day in favor of the  
plaintiffs.

By Telegraph to THE SENTINEL.  
NEW YORK, June 6.—The Typograph-  
ical convention has decided that during  
any strike authorized by the executive  
committee the strikers were to receive \$7  
per week from the union's strike fund.  
The chief organizer was directed to com-  
pile a blacklist book. A three-fourths  
vote, it was agreed, of members in good  
standing, should be necessary to change  
the scale of prices. Pittsburgh was se-  
lected as the place for holding the next  
convention. A resolution was adopted  
to the effect that if there is to be a  
change in the office of public printer the  
president of the United States be re-  
quested to appoint such a person as will  
be in sympathy with organized labor.

**A List of Killed.**  
By Telegraph to THE SENTINEL.  
WASHINGTON, June 6.—General Crooke  
states that up to last night the following  
number have been killed by the Indians.  
Seven in the Blue and around Aliva; five  
near Silver City; two near Old Camp

seventeen.

**Woolen Strung Up.**  
By Telegraph to THE SENTINEL.  
MEMPHIS, TENN., June 5.—Joe Clark,  
colored, who killed Peter Woolen, also  
colored, near Saulsbury, was hanged  
this afternoon at Bolivar, Tenn. Be-  
fore going to the gallows he made a  
short speech from the veranda of the  
jail to the crowd of 300, expressing his  
entire willingness to die and warning  
others to avoid his fate. He had been  
attended during his imprisonment by  
members of the clergy, both white and  
colored, and manifested a perfect con-  
fidence that his crime had been for-  
given and that his soul would imme-  
diately soar to glory. His neck was  
broken and death resulted in less than  
three minutes.

**After Haines.**  
By Cable to THE SENTINEL.  
SPRINGFIELD, Ill., June 5.—Speaker  
Haines was sick this morning, and  
Representative Fuller occupied the  
chair by request of the speaker.  
Representative Collins submitted a  
resolution, citing that as the speaker  
had taken the floor yesterday, exhibit-  
ing certain documents and threaten-  
ing to disclose the contents, thereby  
giving rise to a belief that the publica-  
tion of them would compromise the  
honor of one or more members, and  
also laid the speaker open to the  
charge of knowingly condoning  
fraud, the house demands the pro-  
duction of the paper and that in the  
event of his failure to do so  
"it is the judgment of this body that  
the dishonorable nature of the pro-  
posals or acts set forth in said docu-  
ments and the speaker was disposed  
to condole the same, stand before the  
people of Illinois as confessed."  
Fuller asked that the resolution lay  
over till Haines was present, and Col-  
lins said if the resolution could be  
brought up when the speaker was  
present he would consent.

**Failure of Ex-Governor Hale.**

By Telegraph to THE SENTINEL.  
BOSTON, Mass., June 6.—A special  
from Concord, N. H., says, that ex-Gov-  
ernor Hale, of New Hampshire, has failed  
with large liabilities. His house in  
Keene and his interest in the extensive  
chair company was attached Thursday,  
with claims amounting to over \$100,000.  
It is reported that the liabilities may  
reach \$1,000,000. It is reported that  
Senator Blair and Frank W. Jones, of  
New Hampshire, are among the chief  
creditors of Hale's paper. The attach-  
ments amount to \$277,000. One year  
ago Hale's statement of his financial  
standing, as filed with Bradstreet's ag-  
ency, over his own signature, showed him  
to be worth \$700,000, with liabilities of  
\$100,000. The assets are very light,  
consisting only of his residence and the  
land and water privilege of the burned  
chair factory.

**A Large Defalcation Discovered.**

By Telegraph to THE SENTINEL.  
NEW YORK, June 6.—A special to the  
Sun from New Orleans says: "Investi-  
gation made by the government of the  
defalcation in the United States sub-  
treasury in this city, was so secretly con-  
ducted that even the local press did not  
know it. The accounts were examined  
May 23 and found correct. On Saturday  
another investigation was made and the  
committee disclosed a shortage in the  
accounts of J. H. Audemart, redemp-  
tion clerk. Monday morning Mr. Aud-  
emart failed to appear at his office. He  
left on Saturday and on Monday morn-  
ing was in the interior of Mexico. The  
defalcation is already shown to be over  
\$80,000 and may be much larger."

mously adopted resolutions endorsing  
the administration of President Cleve-  
land and Governor Hill and approving  
the policies of Secretaries Manning and  
Whitney.

**The Result of a Fued.**

By Telegraph to THE SENTINEL.  
MARSHALLTOWN, Iowa, June 6.—  
Specials to the Times-Republican say:  
The lynching of Rainberger at  
Eldora last night is the result of an  
old feud that has been brewing in  
Harden county for many years. It  
originated in a family quarrel a num-  
ber of years ago and culminated last  
year in the murder of Johnson. For  
this crime the two Rainbergers, Na-  
thaniel and Frank, are in jail now at  
Marshalltown, charged with murder.  
The accusation was made by the wife  
of Nate and daughter of Johnson.  
Among the most prominent in the  
county who testified in the preliminary  
examination was John Underwood.  
His life was threatened by the gang.  
A few days ago suspicious movements  
were noticed by a party upon whom  
a watch was kept, who was discovered  
in a secret communication with the  
Rainbergers. It was finally found  
that a plot was being concocted to  
murder a number of the leading citi-  
zens of the county.

The facts were developed only a day  
or two ago, and night before last Dr.  
Underwood and Dr. Reed-nour, a den-  
tist, were shot at as they were driving  
along in the country. The former was  
wounded and hit once only, though a  
number of shots were fired. This at-  
tempt drove the citizens to desperation  
and the Rainbergers having been ar-  
rested last evening were during the  
night taken out and lynched. The  
brothers lynched were known as Fin  
and Mahns. Fin was a pardoned con-  
vict, charged with murder. The family  
and their followers are hard cases,  
and have given peaceable people a  
great deal of trouble. Great excite-  
ment prevails, but public sentiment,  
however, generally approves of the  
lynching. It is doubtful if any prose-  
cutions will follow.

**Ohio Greenbackers.**

By Telegraph to THE SENTINEL.  
COLUMBUS, June 6.—The greenback  
labor party met in state convention to-  
day and adopted resolutions endorsing  
the Indianapolis platform, demanding  
the expansion of the currency; that  
banks of issue be abolished and legal  
notes substituted for bank bills; de-  
mand that congress issue legal tender  
paper currency to the amount of \$50  
per capita for the immediate payment  
of bonds of the United States and public  
improvements; condemning the  
course of both great parties in their  
action in regard to the public lands,  
and asking the restoration of lands  
held by foreigners; favoring the sub-  
mission of a prohibitory amendment,  
and against fusion with any other  
party organization.

A full state ticket was nominated as  
follows: Governor, J. W. Northrup,  
Columbiana county; lieutenant-gov-  
ernor, M. B. Cooley, Washington county;  
treasurer, R. P. Harrison, Lake county;  
supreme judge, G. N. Tuttle, Lake  
county; attorney general, William  
Haker, Licking county; board of pub-  
lic works, W. B. Ogden, Hamilton  
county.

John Seitz, member of the national  
committee and the old state committee  
were continued.

By Cable to THE SENTINEL.  
ST. PETERSBURG, June 6.—The No-  
vosti, a newspaper, announces that it  
has been privately informed from the  
Caucasus that the ameer of Afghanistan,  
Aldurrah Wan, had been murdered by  
his suite. It is said the murder took  
place in Persia, where the ameer was  
traveling, and that Ayaz Khan, a de-  
posed ameer, will be his successor. The  
report causes much excitement.

**THEY DOW IT.**

LONDON, June 6.—The reported mur-

doubted in official circles here as the  
government had received no information  
tending to confirm the rumor.

**The Princess for Peace.**

By Cable to THE SENTINEL.  
PARIS, June 6.—The Gazette states  
that the Princess of Wales is endeavor-  
ing to bring about a meeting of the  
Princes of Wales and the czar of Russia,  
at Copenhagen. It is the hope of the  
princess that permanent peace may be  
secured through the meeting.

**Lumden at London.**

By Cable to THE SENTINEL.  
LONDON, June 6.—Sir Peter Lumden  
has arrived.

LONDON, June 5.—Mr. Childers,  
chancellor of the exchequer, announc-  
ed in the house of commons this after-  
noon that the extra duty on spirits had  
been fixed at one shilling per gallon.  
This was a reduction, he said, which  
would involve the loss to public reve-  
nue of \$1,500,000 per annum. The ad-  
ditional duty on beer, the chancellor  
said, would be retained until May 31st,  
1886, and no other changes in the bud-  
get would be made.

Gladstone stated that Russia and  
England had come to an agreement  
concerning the points of difference be-  
tween them, which were to be referred  
to arbitration. He also stated that the  
governments have likewise agreed upon  
an arbitrator, but, as the person chosen  
for arbitrator has not yet been  
formally asked to accept, he was un-  
able to say further on the subject now.

The cabinet to-day discussed the  
Irish coercion for two hours, but failed  
to reach an agreement. Earl Spencer,  
in an interview with Mr. Gladstone  
yesterday, stated that an irreducible  
minimum or coercion he considered  
indispensable for governing Ireland.  
He showed by his absence from the  
council to-day that he was determined  
that there should be no compassion.  
The majority of the cabinet support  
Earl Spencer. Mr. Gladstone, anx-  
iously that there shall be no disruption  
in the face of the general election, ask-  
ed Mr. Chamberlain and Sir Charles  
Dilke to accede to Earl Spencer's full  
demand for one year. The council  
was adjourned until Tuesday. The  
excitement in ministerial circles over the  
crisis is intense. It is said that Sir  
Charles Dilke and Mr. Chamberlain in-  
tend to resign.

Neither sudden trap spring by employers nor violence ever untied the knots from the knuckles of toil or put more money into callous palm. Barbarism will never cure the wrongs of civilization. Frederick the Great wanted the property of a miller adjoining the grounds near Potsdam. The king offered the miller three times the value of the property. The miller would not sell, because it was the old homestead, and he felt about it as Naboth did about his vineyard when Ahab wanted it. Frederick the Great was a rough and terrible

FOUR ACTS PLAYED.

Said Report About Ex-President Arthur.

Will the Fifth and Final Act be a Tragedy.

Theater Democrat and Chronicle.  
"Dr. Lincoln who was at the funeral of ex-Secretary Frelinghuysen, says ex-President Arthur looked very well. He is suffering from Bright's disease. During the past year it has assumed a very aggravated form."

That telegram is act IV. of a drama written by ex-President Arthur's physicians. In act I. he was made to appear in "Malaria," of which all the country was told when he went to Florida.

In act II. he represented a tired man, worn down, walking the sands at Old Point Comfort and looking eastward over the Atlantic for a longer rest.

The curtain rolls up for act III. upon the distinguished actor affected with melancholy from Bright's disease, while act IV. discovers him with the disease "in an aggravated form, suffering intensely (which is unusual) and about to take a sea voyage."

Just such as this is the plot of many dramas by play-rights of the medical profession. They write the first two or three acts with no conception of what their character will develop in the final one.

They have not the discernment for tracing in the early, what the latter impregnations will be. Not one physician in a hundred has the adequate microscopic and chemical appliances for discovering Bright's disease in its early stages, and when many do finally comprehend that their patients are dying with it, when death occurs, they will, to cover up their ignorance of it, pronounce the fatality to have been caused by ordinary ailments, whereas these ailments are really results of Bright's disease of which they are unconscious victims.

Beyond any doubt, eighty per cent. of all the deaths except from epidemics and accidents, result from diseased kidneys or livers. If the dying be distinguished and his friends too intelligent to be easily deceived, his physicians perhaps pronounce the complaint, pericarditis, pneumonia, apoplexia, bronchitis, pleuritis, valvular lesions of the heart, pneumonia, etc. If the deceased be less noted, malaria is now the fashionable assignment of the cause of death.

But all the same, named right or named wrong, this fearful scourge gathers them in! While it prevails among persons of sedentary habits—lawyers, clergymen, congressmen,—it also plays great havoc among farmers, day laborers and mechanics, though they do not suspect it, because their physicians keep it from them, if indeed they are able to detect it.

It sweeps thousands of women and children into untimely graves every year. The health gives away gradually, the strength is variable, the appetite feeble, the vigor less and less. This isn't malaria—it is the beginning of kidney disease and will end—who does not know how?

No, nature has not been remiss. Independent research has given an infallible remedy for this common disorder, but of course the bigoted physicians will not use Warner's safe cure, because it is a private affair and cuts up their practice by restoring the health of those who have been invalids for years.

The new saying of "how common Bright's disease is becoming among prominent men" is getting old, and, as the Englishman would say, sounds "stupid"—especially "stupid" since this disease is readily detected by the more learned men and specialists of this disease. But the "common run" of physicians, not detecting it, give the patient opium salts or other drugs prescribed by the old code of treatment under which their grandfathers practiced.

Now, we hear that the patient is "comfortable." But ere long, maybe, they "tip" him and take some water from him and again the "comfortable" story is told. Torture him rather than allow him to use Warner's safe cure! With such variations the doctors play upon the unfortunate until his strength is made, when we learn that he died from heart disease, pyemia, septicemia or some other deceptive though "dignified" cause.

Ex-President Arthur's case is not singular—it is typical of every such case. "He is suffering intensely." This is not usual. Generally there is almost no suffering. He may recover, if he will act independently of his physicians. The agency named has cured thousands even in the extreme stages in today the majority of the health of hundreds of thousands. It is an unfortunate fact that physicians will not admit there is any virtue outside their own sphere, but as each school denies virtue to all others, the people act on their own judgment and accept things by the record of merit they make.

The facts are cause for alarm, but there is abundant hope in prompt and independent action.

Sister Woodworth Converted Him.

Charles Snowden, of Richmond, a graduate of Earlham college, wandered into the rink at Kokomo, to attend the Woodward meetings. He was quite drunk and went up to the alter as a seer. After working with him a while, his condition was discerned and a policeman sent for. Constable Lumm arrived and arrested Snowden at the alter and hauled him off to jail. In the morning both the constable and Snowden returned and went to the mourner's bench and were converted. Snowden has frequently spoken at the meetings. Mrs. Woodward is said to contemplate an early departure from Kokomo with a view to beginning a series of meetings at Indianapolis, in the California Street M. E. church.

Murder at Decatur.

There is great excitement at Decatur over the discovery of a murder said to have been committed four years ago. The victim was James Allen, who was working as a section hand on the railroad, but who suddenly disappeared, leaving \$30 coming to him from the railroad. It is said that Allen had \$500 on deposit at one of the local banks, which he drew the day before he disappeared. The last time Allen was seen alive was at a house of ill-fame in the western part of the city, and one of the inmates, Mrs. Sullivan, who now resides in Kansas, related to some of her intimate friends that she saw one of the inmates of the house shoot Allen, who fell on his knees, when one of the inmates ran up and held him in that position while two more shots were fired, and that the murdered man was then taken to an out-house, the floor taken up and the remains buried under it. There was some such talk at the time of his disappearance, but it was quieted by a report that Allen was seen in Ohio.

GILBERT A. PIERCE.

Governor of Dakota Territory.

Gilbert A. Pierce, Governor of Dakota Territory, was born in New York State. He went to Indiana when 18 years old, and subsequently studied law at the Chicago University. After his admission to the bar he practiced at Valparaiso, Ind., for six months before the outbreak of the war. Upon the Monday following the firing upon Fort Sumter he enlisted in Co. H, Ninth Indiana Volunteers, and was elected second lieutenant. He served in Western Virginia under Gen. B. M. Lewis and participated in the battle of Philippi, Laurel Hill, and Carleton's Fork. Two days later he was promoted Captain and Assistant Quartermaster by President Lincoln, and was assigned to duty at Paducah, Ky. He served at Fort Hamilton and Shiloh and also in the Vicksburg campaign. He was promoted a Lieutenant Colonel and Chief Quartermaster of the Thirtieth Army Corps in 1862, and was made Colonel, and Inspector of Department 1864. In a writing order from Secretary Stanton he was assigned to duty as Special Commissioner of the War Department to the South, and served with Gen. Foster. Upon the surrender of Mobile he returned to duty with the city of Vicksburg. In 1865 there was a vacancy in the Indiana Legislature and he was chosen by the General Assembly. He was then engaged when appointed as Governor of Dakota. When the grand renegade of the armistice took place at his age in two years (three years) he was chosen to the office of Governor. He is the author of "Dakota's History," published by James H. Good & Co., of Boston. He is also the author of several plays, one of which has been quite successful. He has written two novels, "Digger, a Country Brother," and "A Dangerous Woman," and also many sketches for the leading magazines, etc.

Walking for Health.

There is no better authority on walking than Miss Bertha Von Hillern, whose pedestrian feats and most agreeable presence will be pleasantly remembered here. She did what she undertook to do, and she did not break down, either then or since, showing that she had the full measure of her own strength. Moreover, the money which was made by her exhibitions of walking, was devoted to art study, and she has spent several years in out-door sketching among the mountains of Virginia, which results that have been exhibited in Earle's Galleries. In that Virginia region everybody goes on horseback if it is not the beggars at least it is the under-foot etiquette that one may always borrow a horse instead of walking a half mile. Miss Von Hillern's observations on the ill-health of people who never walk, led her to give advice to a number of women for walking as a regimen. In a Baltimore journal she tells the results of her experience, advising even consumptives to take regular and gradually increasing walks for the benefit to the circulation. The Housewife has already told the story of the old patriarch Philadelphia who always cured her colds by going to the washbasin along with her maids; and if the washbasin is not always available, the walk is. When there is the feeling of having taken cold, the miserable "all-over-ness," without any localized sensation, a good walk will frequently throw off the clutch of cold. But it must be a Bertha Von Hillern walk, free, elastic, brisk, not an indolent dawdle. Miss Von Hillern walks with her arms; these in great activity, and until this has been no one really knows how exhilarating a walk may be. The chest is expanded, the breath comes easily, the walk is not all thrown on the lower limbs, but a sort of electrical glow reminds you that—however well descended—even the ladies begin life with walking on "all fours." To walk with all fours, that is with the arms swinging in rhythm to the stride is to take a health walk. This is sure to cure low spirits and some other things. Miss Von Hillern relates how she broke up a fainting and trembling spell in a friend by suddenly inducing her to take a quick run down a hill, thus bringing the circulation into good play. This, of course, was not a heart-failure, which is among the exceptions that she makes to her general rules that walking will cure. Many people who believe themselves and indeed seem too weak to walk, might profit by her encouragement and reminders of what real walking does for the body, what sluggish functions it brings into play. It is a pity there is not a walking rink here for women, who will probably not begin to swing their arms in the streets unless they shall have plenty of company, or some Princess should set the fashion. Whenever a sitting-room feels too chilly, in the autumn or spring days while it is not considered cold enough for a fire, Miss Von Hillern recommends to take a brisk scamper of a few minutes out of doors before settling down to sewing, with the result that the good glow will continue and keep you in comfort for hours afterward.—Philadelphia Leader.

Enormous Raft.

The timber rafts of the Rhine are a noticeable characteristic of that river. They consist of timber felled in the mountain forests and brought down to the Rhine by the Necker, Main, Moselle, and other rivers. The single logs are first hauled down from the heights into the mountain torrent, then a few are tied together, and as they float down the streamlet grow like a snowball, till in the Rhine itself they are made into huge floating fabrics, which are carefully navigated to Dordrecht and sold. A raft has often ten or twelve small houses on it, and from 400 to 500 workmen, rowers, and pilots. The vast pile is steered by means of immense oars, and is so constructed as to twist like a huge snake in the narrow channels. The sale of a single raft at the end of the voyage often realizes about \$150,000.

Only Whisper Scandal and the Echo is Heard by All.

There is no better authority on walking than Miss Bertha Von Hillern, whose pedestrian feats and most agreeable presence will be pleasantly remembered here. New Orleans Times-Democrat.

The papers are publishing a list of the new buildings constructed in the leading American cities of this country as an evidence of their growth. It is not always a perfect test, because in a great many American cities—notably New Orleans—no proper record is kept of building improvements. Where, however, such a record is preserved it is very suggestive of the growth, progress, and prosperity of the town. The table indicates Chicago's claim to a rapid increase of population. It is spending more money in buildings than any three towns in the West, and erecting enough new houses each year to accommodate 30,000 people. If the building improvements be taken as a test, Chicago will certainly have not less than 800,000 inhabitants by 1900. St. Louis, on the other hand, is growing slowly, spending less on houses than either Minneapolis or St. Paul, and no more than Kansas City. It is providing for not more than 10,000 people a year, and, at the present rate of increase, will not range much over 500,000 in 1900. St. Paul is adding 11,000 a year, and Minneapolis the same number, and are clearly entitled to their present claim of 100,000 each. The twin cities will be able to claim 320,000 people by 1900, unless some shock stops their present rapid progress. Kansas City is another growing town, promising to have 150,000 people by 1900; Omaha looks good for 80,000; Milwaukee for 100,000; Detroit for 170,000; Toledo for 80,000; Des Moines for 60,000; and Portland, Oregon, for 50,000. It is highly probable that all these cities will all reach these figures. With the exception of Chicago, the Illinois towns seem stagnant. Rock Island and erected but \$20,000 worth of buildings, Galena but \$31,000 last year, not enough to replace the buildings destroyed by fire. Louisville, at its present rate, will not add over 25,000 to its population in the present decade.

DR. HORACE BOWEN, of Vineland, New Jersey, is about as original in his views as any of the individuals engaged in the present popular movement of starting new religions. He has in Vineland an institution which he calls the "Sanitarium of the Order of New Life." He has a complex doctrine, and to this adds the physical treatment of starvation, rubbing, and occasional doses of homeopathic medicine. The doctor has been experimenting on the inmates of the place to try and develop his theory "that mankind is the fruit of a long process of evolution which still continues, and has brought the human race to a point where another step forward is to be made, and absolute perfection and equality with God attained." He states that he personally has reached the beginning of this beatific state, and is beyond the reach of disease and death, and that his mission is now to purge the world of last and show his fellow men his new discovery. The doctor's theory that starvation will produce immortality seems to be generally accepted by some of the Vinelanders with the omission of the first "I" in immortality. Most of the converts are foolish old ladies, and the reputation of the sanitarium is such that an investigation is probable.

"The Pine Tree Shilling."

The earliest American coinage was in Boston in 1652. The coins were of the value of 3 pence, 6 pence, and 12 pence. They were of silver, rude and somewhat uneven in thickness, and irregularly circular, with no device, legend, or date, save the letters, "N. E." on the obverse, and the Roman numerals on the reverse side to signify the value in pence. None of the 3-penny pieces are believed to be in existence at present. These were soon followed by more elaborate coinage, and instead of the letters "N. E." on the obverse, there was a double circle of dots enclosing the word "Massachusetts," and within the inner circle a representation of an oak tree. Upon the reverse side the words "New England, Our Home." They bore the date of 1652, underneath which were the numerals expressing the value in pence. During the following year the oak was replaced by the pine tree, and for thirty years or more, silver coins with the pine tree and the date 1652 were issued. The denomination most largely issued was the coin of the value of 1 shilling, hence the famous "pine-tree shilling." It should be noticed that the inscriptions varied during that period as sentiment or caprice demanded.—Dr. Charles Fisher.

Rheumatism, Gout and Neuralgia.

It is scientifically settled that rheumatism, gout and neuralgia cannot be cured by rubbing with oils, ointments, liniments, lotions, etc.; for the reason that these diseases are caused by uric acid in the blood. The only preparation which uniformly expels this acid is Parker's Tonic. Subdues pain at once. Try it.

The unparalleled success of the Red Letter Sale proves that the public have found the truth in every statement advertised by us. Selling first class new goods at one-third less than present New York value seems improbable, yet is hourly substantiated, one trial will convince you. Responsive to the overwhelming demand we will extend the Red Letter Sale to July 4th. Every department complete.

Administrators and guardians who do not promptly report will be ordered into court on application of County Clerk Maier, who watches these affairs closely.

Sim Bridenstien had a narrow escape from death last night. He was loading a revolver which was discharged, the bullet passing through a portion of his coat.

R. T. McDonald will have a committee of Peoria councilmen here next Monday. They come to examine the Jenny electric light with a view of adopting it at Peoria.

Alpheus Wheelock, noted as a bridge builder, and once associated with Hon. Wm. Fleming and W. R. Nelson, has returned from the south and may permanently reside here.

Some 200 employees of the Wabash main line have been notified that their services will not be required after July 1. A large per cent. of the number are single men, or have been in the employ of the company but a few months.

The young son ex-Councilman Fred C. Boltz fell while playing in the school yard in Bloomingdale yesterday, and dislocated his shoulder blade. This is the second time this has happened, he having displaced the same shoulder last fall some time.

Rev. A. H. Gillett, superintendent of instructions at Island Park assembly, will be in Fort Wayne during Sunday. He will conduct a C. L. S. C. vespers service at the Berry street M. E. church Sunday evening at 5 o'clock. All members of the circle and public generally are invited.

Some facetious newspaper scribbler originated the graphic lie that the average salary of the engineers on the main line of the Wabash is \$175 per month. Only when there is a rush on, and the men put in thirty-five or forty days per month do they earn this sum, and the average the year through will not exceed \$101 per month.

The Sentinel spoke not unkindly of any person in detailing the impurity of the water in the city mains and no amount of newspaper talk will purify the supply. For two weeks the water has been bad and hundreds of people will testify. The trustees ought to rejoice at an opportunity to improve and add to the efficiency of the service.

The Princess rink was open today and the attendance increased.

The county commissioners will settle with the township trustees Monday.

The Sentinel regrets to announce that Mrs. R. C. Bell continues quite ill. Sept. C. D. Law has returned from the east, where he was on private business.

Dr. L. S. Noll will come to this city to permanently reside. He proposes to build a residence at the corner of Washington and Clinton streets.

Bob McDonald writes John McCain that he is delighted with Geneva Lake and will take charge of the house of call connected with G. J. E. Mayer's hotel.

The Fort Wayne bill posting company this morning razed the board belonging to John Scott on the Mayer house property and erected a handsome one in its stead.

George F. Felts will not take control of the office of county superintendent until a week from next Monday. He gives Mr. Hulegas until that time to settle his affairs.

A strawberry festival begins at Catholic library hall next Tuesday. Wednesday evening the Arion and Sengertbund societies will attend the feast and render some of their popular songs.

The Decatur Democrat says: "Miss Sweet Barnett is visiting friends at Fort Wayne. Chas. Figg, of the Pittsburgh freight office, of Fort Wayne, was in the city Tuesday evening calling on his friends."

The steamer, Waite, leaves Toledo for Put-in-Bay every Sunday at 9 a. m. and returns at 8 p. m. This is a most desirable trip for those wishing to see the beautiful islands of Lake Erie and enjoy the lake ride.

The rival bill posting companies are again at war. This morning Captain Richards cut down Col. John A. Scott's bill board, around the south end of the Mayer house property, and at once nailed up a new bill board. Mr. Scott threatens a half dozen damage suits.

The Wabash Courier says: "The Courier is indebted to Mike Walsh, the efficient and popular clerk, and Mr. Moritz, the gentlemanly proprietor of the Aveline house, Fort Wayne, for courteous shown." The Courier further compliments the Aveline house highly.

Four offenders stood before Mayor Muhler this morning. Conrad Smith and Henry Grady gracefully admitted they indulged in a drink and were sent to jail to board out \$11 each. John Henry and Frank Caslett, vagrants, were let go as they promised to promptly skip the town.

Last evening a delegation of Missouri editors arrived on the Wabash from the west. They went north on the Grand Rapids and Indiana railroad this morning and will enjoy themselves in the wilds of northern Michigan. The party returns Tuesday and will be in this city for a brief time.

The Indianapolis Times says: "Bishop and Mrs. Knickerbocker were tendered a reception at the Randall mansion, Fort Wayne, on Wednesday evening, which was largely attended by the best people of the city, as well as by the delegates to the Episcopal convention now in session at that place."

The Wabash will again change time in a few days. The alterations of the present schedule will be slight, but a new east bound passenger train, No. 48, will be put on. The change in the time-card made two weeks ago has cooked a very generous donation of profanity during that period. The trains could hardly run at more inopportune hours for travelers.

The veteran militia company will run their annual excursion to Rome City, Thursday June 11. They will give a sham battle, exhibition drill and dress parade in the evening before leaving for home. The proceeds are to go towards completing the camp equipment of the company, preparatory to the encampment of the veteran regiment to be held at Fort Wayne this summer.

HIGHER HONORS. Rt. Rev. Bishop Dwenger to Be Appointed Coadjutor to Archbishop Kendrick, of St. Louis.

Rt. Rev. Bishop Dwenger, now at Rome as the spokesman of the Baltimore Plenary council, may be the recipient of additional honors from Pope Leo. The following from the Lafayette Courier is important: "It is believed in Catholic circles that Rt. Rev. Bishop Dwenger, of Fort Wayne, will shortly be appointed coadjutor to Archbishop Kendrick, of St. Louis, which would place him in the line of succession to the archbishopric. The archbishop is very old and feeble and his death is anticipated at any time. Bishop Rudenmacher (Father Joseph), of Nashville, is mentioned in the same connection. Should Bishop Dwenger be appointed, it is surmised that Rev. Father Walters, of St. Mary's church, will be his successor. Father Walters' head would fit the miter exactly."

The city editor of the Courier is a Catholic and the article probably comes from Father Walters, who is high in the councils of the Church of Rome and well posted. The Sentinel would regret to lose Rt. Rev. Bishop Dwenger from this diocese, but pride would compel it to rejoice at his elevation, because he merits any honor the church can bestow. Our distinguished divine was picked up a bare-footed boy by Archbishop Purcell, as if by inspiration. Very Rev. Father Brammer will, in all probability, be considered by the pope in connection with the bishopric and the great prize will be recommended by Bishop Dwenger.

THE DEMOCRATIC COUNCIL NOMINEES.

Dr. Henry A. Read is the democratic candidate for councilman in the Third ward. The polls were opened last evening, but as no one appeared against him he was declared the regular democratic nominee. Dr. Read is the son of Jack Read, the veteran livery stable man. The doctor is a native of Fort Wayne, a property holder and a successful business man. He is clean, honorable and in accord with the principles of the democratic party. Not a man in the ward can refuse to vote for him next Monday.

In the Eighth ward the democratic yesterday nominated Frank A. Goeke, an honest, square gentleman, who will do honor to that gallant precinct. Let the old time workers and all the voters of the banner Eighth do the occasion justice and elect Mr. Goeke by a rousing majority Monday.

The State Bicycle Tournament.

The Fort Wayne wheelmen have been invited to attend the Bicycle tournament at Indianapolis Monday and Tuesday, and Mr. C. W. Edgerton has been delegated a representative from this city. There will be sixteen bicycle and tricycle races under different conditions and distances. Some of the fastest flyers in the country will be present and participate, two of them having mile records of 2:40. This used to be fast time for trotting horses. The managers offer a purse of \$50 for any trotting or pacing horse that will go five miles and win against a bicycle during the tournament. This will be a very interesting race. The races will commence at 3 p. m. sharp, on each day, and will continue until dark. Monday night there will be an exhibition of fancy and trick riding at Meridian rink. Woodside and Brooks, professional bicycle riders, will attend the tournament.

The Knights of Pythias Drill.

In the prize drill of the state divisions of Knights of Pythias, which took place at the state fair grounds, near Indianapolis, Kokomo division took the first prize of \$300 for the best drilled company, and also the prize of \$50 for presenting the best appearance in the street parade. Cornwaller division took the first prize for the best drill of all divisions never competing at former contests; premium \$150. The judges were Colonel Northrop of Louisville, Colonel Ruckle of Indianapolis, and Lieutenant Ogle of the United States army.

Col. F. N. Kallack tells us that the next prize drill will occur in this city and three regiments will encamp on the fair grounds in September, 1886.

Mr. S. L. Morris' Magnanimity.

The Decatur Democrat has this personal gossip: "S. L. Morris, of Fort Wayne, who addressed our people on memorial day, has gained the admiration of our people, not only by the eloquent address which he delivered, but by the earnestness shown why the day should be observed. When the committee from the Grand Army Post waited upon him for the purpose of paying him for his services on that occasion, he refused to accept anything whatever. He would not even allow his railroad fare to be paid. The boys will remember Sam for all time to come."

A Pointer for Fort Wayne.

Two weeks ago Muncie received a proposition from the bending works at Bluffton to remove to the former place if a sufficient sum should be raised to erect a suitable building. No difficulty was had in raising the amount and the company agreed to furnish employment to

seventy-five hands every working day in the season, while the probabilities are that they will employ twice that number.

A CROOK CORNERED.

Sheriff Nelson Puts Irons on James Hartley, an Embezzler and Thief.

When Sheriff Nelson got home from Zanesville this morning Willard Vaughn, of Abbot township, awaited him. The man explained that James Hartley was employed by his brother, James Vaughn, now on a sick bed, to cut, haul and sell wood. Yesterday Hartley came to this city with a load of wood, which he sold for \$1.25. In a social way he met Tommy Hunt and Frank Stover and a horse trade was proposed. Hartley drove the party to Hunt's place on Spy Run avenue, and there swapped Vaughn's horses to Hunt and Stover for \$10 and two silver watches. Sheriff Nelson took notes and in an hour he had Hartley in jail. He likewise ordered Hunt and Stover to produce the horses, and they cheerfully complied. Thus does Mr. Vaughn get his property, and Hartley a term in the prison north. Sheriff Nelson never lets a guilty man get away.

A WARNING TO DEMOCRATS!

A special election to choose councilmen from the Third and Eighth wards occurs next Monday, June 8. If republicans elect two councilmen under the "Independent" or some other cloak they get complete control of the democratic city of Fort Wayne together with its patronage and appointing power. The democratic party deserves no such rebuke as that, but republicans are on a still hunt and are sparing neither work or money to accomplish their end. Let no democrat be asleep or ignorant of this scheme, much less let no democrat be a party to the work, because there is, even in politics, sacred ties that bind men together for a common cause. Traitorous work and stay at home voters can alone defeat the democratic candidates, on whose election the continued ascendancy of the democratic party in Fort Wayne depends.

A Lively Race at Fair Grounds Tuesday.

There is quite a rivalry between horsemen in this city and to test the speed of the best flyers here, a costly set of harness was purchased by a party of gentlemen who have put it up as a prize to be trotted for, at the fair grounds next Tuesday afternoon at 2 o'clock. The entries are as follows:

George B., owned by F. F. Boltz. Berkie, owned by O. A. Simons. Topsy, owned by O. A. Simons. Edith Gillian, owned by L. Clark. Judge Hoadley, owned by J. W. Pearce.

Gentlemen will be charged a small admission fee, twenty-five cents, and ladies and carriages go in free. This will be a race for blood and rare sport is promised.

Meeting of Stockholders.

Fort Wayne, June 6, 1885. The annual meeting of the stockholders of the New Haven & Fort Wayne Turn Pike Co., will be held in Fort Wayne, Ind., June 26, 1885, at 10 a. m., at No. 32 Calhoun street, for the purpose of electing five directors to serve for the ensuing year and for the transaction of other business.

HERMAN SCHUNKER, President. J. W. VORDERMARK, Secretary. June 6, 1921.

All members of the R. R. Y. M. C. A. are earnestly requested to meet and hear Railroad Secretary George W. Cobb, of Indianapolis, in their parlors this evening. Mr. Cobb is the first and oldest railroad secretary in the service. All railroad men are invited to hear him at the same place on Sunday, at 3:30 p. m.

HUNTED DOWN.

Sheriff Nelson Recovers George Shelly's Plunder at Zanesville.

Some time ago, possibly the night of May 21, the store and saloon of John W. Jacoby, of Zanesville, was robbed. Sheriff Nelson had his eyes on George Shelly, but could not touch him for want of positive proof. Finally Shelly was arrested and sent to jail for a minor offense and then Mr. Nelson put the pumps to him. Shelly confessed he robbed the store and told where the plunder was hidden. Under a house at Zanesville, Sheriff Nelson last evening dug up a box containing \$18. In an out house he found a package of revolver and other articles which he brought to town at 6 o'clock this morning. He will call the attention of the grand jury to the matter Monday and Shelly is likely to go north for the heated term. Mr. Nelson is to be credited with clever work in this case.

Osceola Henderson's Appointment.

Oscar Henderson, editor of the Kokomo Dispatch, says he expects to become collector of internal revenue for the Twelfth district about July 1. He feels certain that he will get the office, and that he will get it soon. He has received advices from Washington to this effect.

The third annual meeting of the Northern Indiana Orphan's Home association will be held at the First Presbyterian church, South Bend, on Tuesday, June 16. The program will include the annual address by the president, reports of the secretary and treasurer, report of the corresponding secretary, containing extracts from correspondence with foster parents, and short addresses by Senator Marvin Campbell and Rev. Wm. McMichael upon the bill recently passed by the legislature in the interest of homes for pauper children. Fort Wayne will be represented.

Water Works Engineer Louis Zollinger telephones THE SENTINEL that the muddy condition of the pipe supply of water may have been occasioned by its exhaustive use in flushing sewers and quenching fire in the past eight or nine days. He says no water comes from the St. Joe river. THE SENTINEL gives the explanation cheerfully.

The Concordia College students will give a picnic next Friday at White's grove.
